

# Stainless steel surface-mounted parcel letterbox BASIC Plus 863X AP with parcel compartment 550x370 in RAL of your choice | with 1 letterbox

**Product number** 863X-A-1-VAR

## Product description

### Stainless steel surface-mounted parcel letterbox BASIC Plus 863X AP with parcel compartment 550x370 in RAL colour of your choice

Receive parcels regardless of delivery company! Any parcel deliverer (e.g. DHL, DPD, TNT, GLS, Hermes, etc.) can use this parcel box. This parcel box is particularly suitable for large but few (usually 1 parcel per day) parcel consignments.

The parcel box is made of stainless steel V2A 1.4301, powder-coated in RAL colour. The very high-quality workmanship and the well thought-out concept make this parcel letter box our top seller. A rain drainage edge for optimum water protection, a throw-in flap with rubber lip, the solid interchangeable nameplate and the robust lock characterise this surface-mounted parcel letterbox. This letter box is easy to clean and robust.

The letterbox systems in the BASIC Plus collection are characterised by the consistent use of V2A stainless steel. The result is a very long service life and sustainability. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

- Surface-mounted parcel letterbox made entirely of stainless steel V2A 1.4301 powder-coated in RAL colour of your choice.
- Parcel compartment 370x550x385 mm (WD) incl. parcel lock with snap-in catch. Includes stainless steel laser labelling "PAKET".
- Parcel compartment volume: 77 litres, max. Parcel size: 340 x 520 x 350 mm (WHT).
- Letterbox 370 x 110 x 385 mm (WHT). Removal from the front, the removal door can be opened from left to right.
- Insertion C4 crosswise from the front, even large letters fit in here without creasing. Insertion flap with rubber lip.
- DIN EN 13724 compliant.
- Includes 2 keys with key number per individual box and changeable name plate (type 2) under the flap.
- Optional house number labelling approx. 80-100 mm high.
- Close-fitting side panelling with integrated rain edge projecting forwards, roof plate folded over side plates made of 2 mm stainless steel V2A 1.4301, powder-coated.
- Delivery includes mounting material for wall mounting.

#### Important information:

The post is only protected against moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still get in (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
