

9-point stainless steel letterbox system Design BASIC Plus 385XW for side wall mounting - RAL of your choice | Right | with 9 letterboxes

Product number 385XW-9S-R

Product description

9-point stainless steel letterbox system Design BASIC Plus 385XW for side wall mounting - RAL of your choice

Modern stainless steel letterbox system for 9 parties for side wall mounting - a high-quality **side wall letterbox** "Made in Germany" from Briefkasten Manufaktur. This **side-mounted letterbox system** is ideal for apartment blocks or residential complexes and offers a long-lasting solution right **next to the front door**.

The letterboxes are made of V2A stainless steel and are powder-coated in a RAL colour. The fastening elements are also made of weather-resistant V2A stainless steel with a 240 grit finish. Sophisticated details such as a rain drainage edge for optimum water protection, noise-reducing throw-in flaps with rubber lip, solid interchangeable nameplates and a robust lock characterise this letterbox system. The **letterbox next to the front door** is easy to clean, robust and impresses with its high suitability for everyday use.

The letterbox systems in the BASIC Plus collection stand for quality, function and sustainability. Thanks to the consistent use of V2A stainless steel, they are corrosion-resistant, durable and low-maintenance. The design was developed by our engineers with a focus on flexibility and modularity. This means that both the supply of spare parts and self-assembly are straightforward. Spare parts are permanently available for all BASIC Plus systems.

- 9 letterbox system made of stainless steel V2A 1.4301 for side wall mounting.
- The system is manufactured by Briefkasten Manufaktur. German quality production "Made in Germany".
- The letterboxes made of stainless steel V2A 1.4301, powder-coated in RAL/DB colour comply with DIN/EN 13724. Insertion size (3.5 cm x 26.5 cm) for C4 high, large letters also fit in here without creasing.
- Insertion flaps with sound-absorbing rubber lip for very quiet insertion of mail.
- The doors can be opened from left to right.
- Incl. 2 keys with key number and changeable name plate under the flap for each letterbox.
- Incl. close-fitting side cladding + rain cover made of stainless steel V2A 1.4301, powder-coated in RAL colour.
- Optional house number labelling, lasered approx. 100-150 mm high.
- Fixing pillars made of stainless steel V2A 1.4301, Ø 60.3 mm, polished with 240 grit. Suitable for screw mounting on the house wall, mounting side (left or right) freely selectable.

Important information:

The post is only protected against moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still enter (up to 1cm according to DIN EN 13724). This is not a reason for complaint.

Ideally, side systems should be installed using bolt anchors, which are not included in the scope of delivery! The bolt anchors or hanger bolts should be selected by the installer according to the wall conditions.

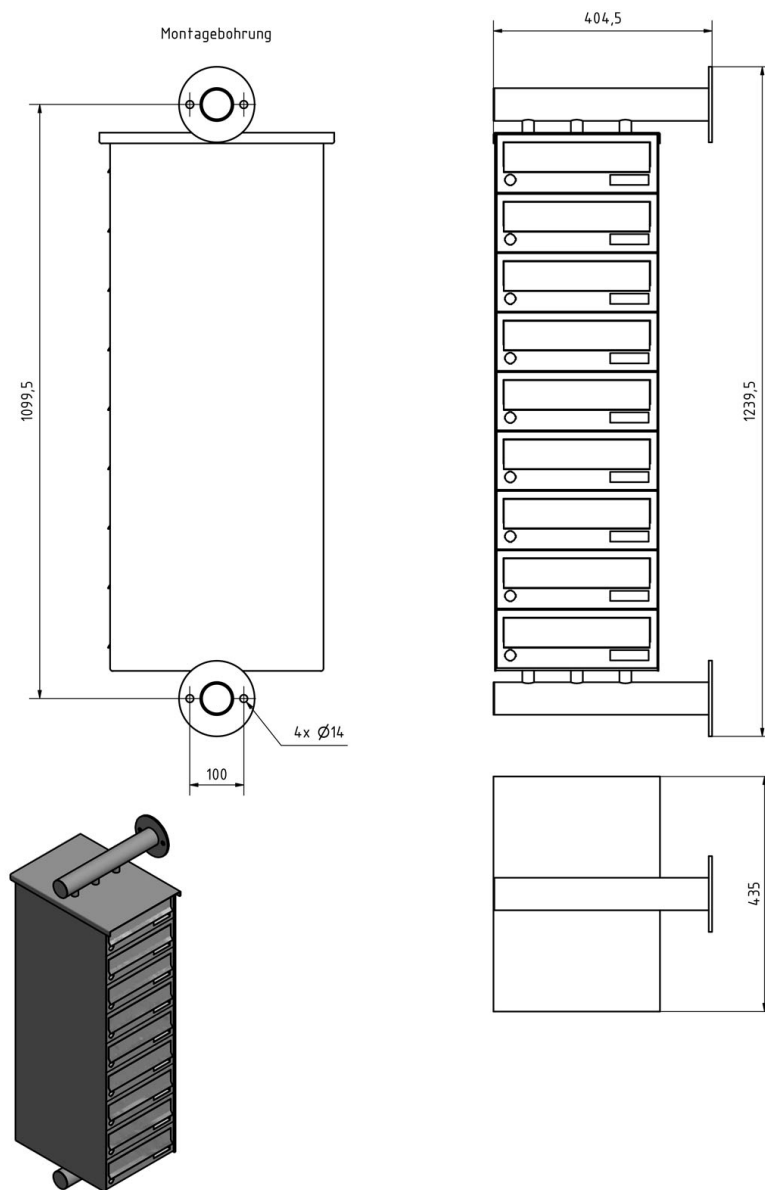

Product properties
