

Design stainless steel letterbox SCHILLER MEDIUM Elegance II with handle bar - house number - name - RAL of your choice | Door hinge left * Lock right

Product number 138E2ST-VARS-SR

Product description

Design stainless steel letterbox SCHILLER MEDIUM Elegance III with handle bar - house number - name - RAL of your choice

Our absolute top seller since 2006. The SCHILLER MEDIUM letterbox has been manufactured by us from the high-quality material stainless steel V2A since 2006. In the new Elegance design line, this letterbox shines in a modern look.

High-quality stainless steel design letterbox for free-standing installation with newspaper compartment. Front panel made of 1.5 mm stainless steel in RAL fine structure, matt powder-coated. The lettering of the house number and name in stainless steel looks very elegant and modern. This letterbox is solidly manufactured and the base material is made entirely of stainless steel. This ensures optimum rust protection.

The dimensions allow for a capacity of approx. 12 litres, and the top entry guarantees no crumpled mail, even with DIN C4 envelopes and magazines or after several days of absence. This free-standing letterbox is designed so that you can keep your hands free when opening it, and the internal structure prevents mail from falling towards you. By inserting the mail from above, the mail inside is optimally protected from the weather. The lid is secured with rubber buffers to prevent annoying rattling.

- High-quality stainless steel design letterbox in RAL colour.
- Body made of 1.25 mm stainless steel, powder-coated in RAL colour fine structure, matt.
- Front panel made of 1.5 mm stainless steel, powder-coated in RAL colour fine structure, matt.
- Front panel with handle strip made of stainless steel V2A 1.4301, polished.
- Available with door hinged on the left (lock on the right) or door hinged on the right (lock on the left).
- High-quality lock on the side incl. 2 keys with key number.
- Post insertion from above, insertion size suitable for C4 envelopes.
- Optimum water protection.
- Engraving of the front panel with name and house number. Engraved surface in polished stainless steel.
- Name inscription approx. 25-35 mm high.
- House number lettering approx. 60-80mm high.
- The pillars are made of 40 mm x 40 mm rectangular tube stainless steel V2A, polished or powder-coated in letterbox colour. For screwing on or setting in concrete.
