

Design pedestal letterbox GRIMM - polished stainless steel | Stainless steel, ground

Product number 562-STR-1-VA

Product description

Design pedestal letterbox GRIMM - A masterpiece of letterbox manufacturing

The GRIMM designer free-standing letterbox is the perfect eye-catcher for any entrance area. With clear lines, high-quality stainless steel and a no-frills design, this free-standing letterbox is impressive across the board. Developed with over 21 years of experience in letterbox construction, the GRIMM combines modern design with innovative technology and the highest quality workmanship. A decisive advantage of a free-standing letterbox: it can be positioned flexibly in the entrance area, regardless of the house façade, and therefore blends harmoniously into the architecture of your property.

Manufactured from high-quality V2A stainless steel and equipped with a robust, polished front panel made from 2 mm stainless steel, the GRIMM free-standing letterbox stands for quality "Made in Germany by Briefkasten Manufaktur Lippe". The innovative push-key lock enables convenient locking without a key - ideal for everyday use. It is supplied with two keys with a key number and is optimally protected against the weather. The removal door is equipped with an opening limiter and opens from top to bottom so that your mail remains securely in the box.

The front insertion is characterised by high-quality axle dampers, which ensure a pleasantly quiet closing mechanism. Thanks to the insertion size of 3.5 cm x 32.5 cm in accordance with DIN/EN 13724, even large letters in C4 format can be inserted easily and undamaged. In addition, an integrated stainless steel removal guard reliably protects your mail. The stepped cover ensures optimum protection against rain and other weather conditions.

Thanks to the DIN/EN 13724 standard, the GRIMM free-standing letterbox is ideal for large letters in C4 format, which can be inserted without creasing. The GRIMM® letterbox impresses with its durable quality, timeless design and sophisticated functionality.

- High-quality free-standing letterbox made entirely of stainless steel.
- Front panel and body made of 2 mm stainless steel V2A 1.4301, polished.
- Quality production - Made in Germany by Briefkasten Manufaktur Lippe.
- Innovative push-key lock including 2 keys with key number, convenient locking without key, optimally protected from the weather.
- The removal door with opening limiter opens from top to bottom to prevent mail from falling towards you.
- Front mail slot with high-quality axle dampers for very quiet mail insertion.
- DIN/EN 13724-compliant letterbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape - even large letters remain intact. Additional stainless steel removal protection integrated.
- Optimum weather protection thanks to offset cover.
- Optional name labelling approx. 15-20 mm high.
- Optional house number lettering approx. 70-80mm high.
- The pedestals are made of 60.3 mm stainless steel V2A 1.4301, polished for screw mounting or setting in concrete.

Important information:

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is completely placed in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Series	GRIMM
Mounting type	Free-standing
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
