

Gira System 106 info module with house number - stainless steel V2A, powder-coated to RAL 7016 anthracite grey fine structure matt | RAL 7016 anthracite grey, fine structure, matt

Product number S106-5560920-RAL

Product description

Gira System 106 info module with house number, laser-inscribed - stainless steel V2A

For house numbers, for example, which should be clearly visible. Character height is adapted to text length.

The Gira System 106 is an installation system made of real metal in a purist, elegant design without a frame, based on a basic dimension of 106.5 × 106.5 mm. With the modular door station in the Gira System 106, hospitality begins at the front door. From the call button, voice and camera module to the info and blind module, all functions are presented in a harmonious overall picture. In the dark, the backlit call buttons with labelling field ensure good legibility and an attractive appearance.

System 106 can be used in detached houses and apartment blocks, as well as in office buildings, industrial premises and hotels. The modular structure allows the system to be customised in size, design and functionality to suit individual requirements. Extensions and changes can be easily made at any time by exchanging modules. It is even possible to simply change the front of the system. This means that the appearance of the system can be subsequently changed from, for example, traffic white to a stainless steel finish without having to replace the electronic units.

Simple installation and step-by-step assembly

The system can be installed in various stages in parallel with the construction progress. For example, it is possible to install only the lower part of the surface-mounted housing first during shell construction, and then add cables and modules when they are needed.

Technical data

Connections

System: 2 x connector strip

Ambient temperature: -25 °C to +70 °C

Protection class: IP54

Product properties

Material Stainless steel V2A 1.4301
House number House number as laser engraving
Surface/colour RAL 7016 anthracite grey
Name labelling Laser-engraved
