Product number BML-9860-STKD-376-S-7016

Product description

Module prepared for sockets/switches/device sockets etc.

The modular socket outlet module is the perfect addition for modular socket outlet columns and enables flexible, needs-based equipping of the power distribution. It has been specially designed for use in ORDO socket outlet columns.

The socket outlet module is designed for easy installation. It is inserted into the module holder provided in the socket outlet pillar and securely fixed in place. The sophisticated design allows individual modules to be replaced quickly, reducing downtimes and enabling extensions to be implemented efficiently.

The module is equipped with a preparation for sockets so that you can install standard sockets/switches/device sockets etc.
