Product number 382XA-VA-5-SP-100-R

Product description

5-piece stainless steel surface-mounted letterbox design BASIC Plus 382XA AP with bell box - stainless steel V2A

High-quality surface-mounted letterbox for 5 parties made in Germany by Briefkasten Manufaktur.

The complete surface-mounted letterbox system is made of V2A stainless steel, polished. The very high-quality workmanship and the well thought-out concept make this letterbox system our top seller. A rain drainage edge for optimum water protection, a continuous rubber lip for quiet insertion, the solid interchangeable nameplate, a practical post holder and the very robust lock characterise this surface-mounted letterbox system.

Thanks to the design, self-assembly is straightforward. The letterbox system is prepared for uncomplicated complete installation, so there is no need for time-consuming wall mounting of individual boxes.

- 5-box surface-mounted letterbox system made entirely of stainless steel V2A 1.4301, polished.
- The system is manufactured by Briefkasten Manufaktur. German quality production "Made in Germany".
- The letterboxes comply with DIN/EN 13724. Insertion size (3.5 cm x 32.5 cm) for C4 landscape, large letters also fit in here without creasing.
- Insertion flaps with sound-absorbing rubber seal for very quiet mail insertion.
- The doors can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate under the flap and post holder for each letterbox.
- Large capacity thanks to optional letterbox depth +50 mm = approx. 17 litres. Suitable for companies and households with very high mail volumes.
- Incl. side panelling + rain cover made of V2A stainless steel, polished.
- For wall mounting incl. mounting rail and fixing material (screws + dowels).

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.

Water protection

The mail is only protected against moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
