Product description

Stainless steel letterbox designer model BIG - GIRA System 106 - 4-gang prepared

High-quality letterbox from the Briefkasten Manufaktur brand in an extra-large format. The Gira System 106 can be used seamlessly in a flush-mounted design. The preparation is intended for 4 GIRA 106 system modules. The modules can be flush-mounted using the simple mounting system (surface-mounted housing 5508910 required!).

This is a real eye-catcher among letterboxes. Clear lines and no-frills design characterise the designer letterbox with GIRA System 106. Our products have a high quality, reliable functionality and their own identity. Made by Briefkasten Manufaktur.

Important information

Camera or intercom preparation

The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.

Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to penetrate the letterbox. It is therefore necessary to plan sufficiently dimensioned letterboxes for the upcoming requirements. Under certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
