

elo 21.5 inch Open Frame Touchscreen 2295L

Product number 611-2295L

Product description

elo 43 inch open frame touchscreen

The new interactive open frame touchscreens from Elo impress with the elegant design for which the 90 series is known and deliver outstanding brightness from 400 to 1000 cd/m². Elegant edge-to-edge glass touch displays: The brilliant, interactive PCAP displays, available in sizes from 22 to 27 inches, enable easy integration and up to 10 simultaneous touches for an enhanced tablet-like experience. With Elo's proven expertise and built-in reliability, the industrial-grade displays deliver superior image sharpness, resolution and excellent light transmission for fast response times and precise, drift-free operation. Elo's open-frame displays not only offer better brightness, but also the versatility that commercial kiosk applications require - whether you're looking for a solution for self-service or gaming applications, industrial automation or retail.
