

# Free-standing GOETHE design parcel box with rear removal - lock system - RAL of your choice | without letterbox | mail collection at the back

**Product number** 215-STL-PK-PE-H

## Product description

### Free-standing GOETHE® design parcel box with rear removal - lock system - RAL of your choice

Parcel delivery has changed dramatically in recent years - today's customers expect more flexibility and security than ever before. With the GOETHE® parcel letterbox from Briefkasten Manufaktur, you can rely on an optimum combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium. Thanks to the removal side at the back, this parcel letter box is ideal for installation in fences or at property boundaries, so that you can remove your parcels conveniently and securely from the inside of your property.

The GOETHE® parcel box has a specially designed delivery gate. As soon as the parcel carrier places your parcel in the lock and closes it, the parcel automatically falls into the securely locked removal box below. After this process, the delivery lock is immediately ready for further deliveries and is automatically isolated from the removal box, ensuring maximum security for your parcels. This design enables parcels to be received independently of the delivery company, which can be used by any parcel delivery company (e.g. DHL, DPD, TNT, GLS, Hermes, etc.). The spacious interior of the GOETHE® parcel box is designed to accommodate the DHL Paket M and even several smaller parcels. Depending on the placement, up to four M-size parcels can be stored at the same time. It is also easy to insert letters, magazines and catalogues (there is no compartment divider).

Briefkasten Manufaktur attaches particular importance to the selection of high-quality materials. The use of stainless steel in the manufacture of the GOETHE® parcel box ensures extremely high corrosion resistance and a strikingly attractive surface finish. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel box reaches you in the required quality. Rely on the GOETHE® parcel box for a secure, flexible and stylish solution to your parcel delivery needs. Let yourself be convinced by a product that combines traditional craftsmanship with state-of-the-art technology - in the spirit of the letterbox manufactory.

**Protected utility model according to DPMA file number DE: 20 2021 101 679.5**

- High-quality parcel box made of stainless steel and aluminium.

- Invisible fastening in the column. The overall height is 1.25 m.

## Important information

### Water protection

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is fully inserted in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.

## Product properties

<b>Surface/colour</b>	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
