

# 6er 3x2 stainless steel surface-mounted letterbox system Design BASIC 382A-AP | 100mm depth | with 6 letterboxes (3x2) | Battery assembly (without roof and cladding) | Stainless steel, ground

Product number 382A-VA-6-V2A-100

# Product description

# 6-point 3x2 stainless steel surface-mounted letterbox system Design BASIC 382A-AP

High-quality stainless steel surface-mounted letterbox for 6 parties made in Germany by Briefkasten Manufaktur.

The complete surface-mounted letterbox system is made of weather-resistant stainless steel, polished. The very high-quality workmanship and the well thought-out concept make this stainless steel letterbox system our top seller. This stainless steel surface-mounted letterbox system is characterised by a rain drainage edge for optimum water protection, a double-edged throw-in flap with rubber buffer, the solid interchangeable nameplate, a practical post holder and the very robust lock.

Thanks to the design, self-assembly is straightforward.

- 6-point surface-mounted letter box made of weather-resistant stainless steel, polished.
- The system is manufactured by Briefkasten Manufaktur. German quality production "Made in Germany".
- The letterboxes comply with DIN/EN 13724. Insertion size (3.5 cm x 32.5 cm) for C4 landscape, large letters also fit in here without creasing.
- Insertion flaps with noise-absorbing rubber buffers for very quiet insertion of mail.
- The doors can be opened from left to right.
- Incl. 2 keys with key number, changeable name plate under the flap and post holder for each letterbox.
- Large capacity thanks to optional letterbox depth +50 mm = approx. 17 litres. Suitable for companies and households with very high mail volumes.
- Additional rain protection is provided by the optional rain cover made of V2A stainless steel, polished. The rain cover is fitted flush with the back of the system, allowing it to be wall-mounted.
- For wall mounting incl. fixing material (screws + dowels).

### Important information:

The post is only protected from moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.

Stainless steel V2A must be maintained regularly and should not be used in salty areas. We recommend our maintenance oil for cleaning and care. See accessories.
