## Description du produit

### Stainless steel fence letterbox BASIC Plus 382XZ with bell box - RAL of your choice - rear removal

High-quality fence letterbox with bell box for intercom system (optional camera) from Briefkasten Manufaktur. Mail is inserted from the front, residents can remove the mail from the back. The letterbox can be attached to your fence using the optional bar mat attachment, if this is not selected, the letterbox should be fitted and perforated by your fence builder. The complete fence letterbox is made of weather-resistant stainless steel V2A 1.4301, powder-coated in the RAL colour of your choice. A rain drainage edge for optimum water protection, a throw-in flap with rubber buffer, the solid interchangeable nameplate, a practical post holder and the very robust lock characterise this stainless steel letterbox.

The letterbox systems in the BASIC Plus collection are characterised by the consistent use of V2A stainless steel. The result is a very long service life and sustainability. The design has been developed by our own engineers with a view to high flexibility and modularity, simple spare parts assembly and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

## Important information

Camera or intercom preparation

**The intercom systems must be connected by an electrician. Please contact your trusted electrician for planning, fitting and installation.**

## Water protection

The mail is only protected against moisture and dirt when it is fully inserted and the flap is closed. Under certain extreme weather conditions, water can still enter (up to 1ccm according to DIN EN 13724). This is not a reason for complaint.
