Numer artykułu 382A-VA-2S-V2A-150

Opis produktu

2-compartment system of surface mailboxes on 1x2 sheets of stainless steel Design BASIC 382A-AP

High-quality stainless steel surface mailbox on sheet metal, 2 mailboxes produced in Germany by Briefkasten Manufaktur.

Complete system of surface mailbox on sheet metal is made of polished stainless steel resistant to atmospheric conditions. Very high quality of execution and professional concept make this system of mailboxes on sheet metal of stainless steel our bestseller. This surface system of mailboxes on sheet metal of stainless steel is characterized by a special design for optimal protection against water, flap for throwing in from the bottom, a double design and a rubber gasket, a solid and replaceable nameplate, a practical handle on the side and a very sturdy lock.

Due to the construction, the self-installation is very simple.

- 2-compartment surface mailbox on sheet metal made of stainless steel resistant to atmospheric conditions, polished.
- System is produced by the company Briefkasten Manufaktur. German production "Made in Germany".
- Mailboxes on sheet metal are in accordance with the standard DIN/EN 13724. Dimensions (3,5 cm x 32,5 cm) for C4 landscape, the letters fit without bending.
- Flap for throwing in with rubber gaskets to ensure a very quiet insertion of mail.
- The handle opens from left to right.
- In the set 2 keys with number, replaceable nameplate and handle for mail for each mailbox on sheet metal.
- Due to the large capacity of the optional 50 mm deep mailbox on sheet metal = approx. 17 liters. Suitable for companies and households.
- Additional protection against rain is an optional stainless steel rain cover made of polished stainless steel V2A. The rain cover is mounted the same way as the system, which makes its installation easy.
- For installation on the wall with the necessary material (screws + spacers).

Useful information:

The handle is protected against moisture and dirt only when it is correctly inserted, and the flap is locked. In extreme weather conditions, water may still get in (up to 1 cm³ according to standard DIN EN 13724). This is not a reason for a claim.

Stainless steel V2A must be regularly maintained and should not be used in places with high salinity. For cleaning and polishing, we recommend our maintenance oil. See accessories.

Właściwości produktu

Seria	PODSTAWOWY
Etykietowanie nazw	Identyfikator
Materiał bazowy	Stal nierdzewna V2A 1.4301
Liczba pudełek	z 2 skrzynkami na listy
Wycofanie przedmiotu	Przód
Powierzchnia/kolor	Uziemienie
